

Jordan Lee

Software Developer

jordan.lee@example.com | +1-555-010-2020 | Example City

Professional Summary

Software Developer with 4 years of experience building web applications and APIs. Experienced in Python, Django, FastAPI, REST APIs, PostgreSQL, Git, and automated testing. Enjoys solving practical problems and collaborating with cross-functional teams.

Technical Skills

Python, Django, FastAPI, REST APIs, PostgreSQL, Git, pytest, Docker

Professional Experience

Software Developer | ExampleTech (fictional) 2023–Present

Developed REST endpoints using Python and FastAPI; improved request validation and error handling. Wrote unit tests with pytest and collaborated on PostgreSQL-backed features.

Junior Developer | Sample Systems (fictional) 2021–2023

Built internal tools with Django and SQL; fixed defects, documented changes, and participated in code reviews.

Projects

Resume Search API

Created a small FastAPI service to search sample resumes by skills and return JSON results.

Test Automation

Added pytest tests for validation, common error cases, and API response formats.

Education

B.Sc. in Computer Science | Example University (fictional) | 2021

Testing note: This is fictional sample data created for file-reading and keyword-search tests.
